SOCIALIST REPUBLICAN MOVEMENT (BANGLADESH)

UNITE. STRUGGLE. LIBERATE.

Ref.: F-10; 10-05/2026 **Dated: October 05, 2026**

Letter of Greetings and Solidarity

Dear Leadership and Delegates of the Second National Congress of the American Communist Party,

Comrades,

On behalf of the Socialist Republican Movement of Bangladesh, I extend our warmest revolutionary greetings to your Second National Congress. Please allow me to express our deepest gratitude to Comrade Jackson Hinkle for reaching out in the true spirit of proletarian internationalism.

You gather at a pivotal juncture in human history. Operating from the very nerve centre of global neo-colonialism, the American Communist Party carries a tremendous responsibility. We honour the glorious, enduring struggles of the American working class and communist movement—those who have courageously resisted the machines of state repression, systemic racism, and the endless post-9/11 neo-colonialist wars unleashed by the US-led order across the Global South.

Here in Bangladesh, we are traversing our own trial by fire. The revolutionary mass uprising of July 2024 ousted a fascist regime, yet our revolution remains unfinished. The ruling classes and Indo-US interests seek to divert the people's sacrifice into mere structural realignments of capital. We assure you: the working people of Bangladesh will not settle for cosmetic reforms. We remain steadfastly determined to complete this revolutionary process and establish a non-capitalist People's Government.

The crisis of global capitalism demands more than isolated national resistance; it necessitates a consolidated international front. We call upon the American Communist Party to take a decisive, proactive step in forging concrete, party-to-party internationalist cooperation. Let us build structured mechanisms for ideological exchange, solidarity, and coordinated struggle against neo-colonialist and imperialist hegemony.

We wish your Second National Congress resounding success. May your deliberations sharpen your ideological vanguard and strengthen the march towards universal socialism.

Long live Proletarian Internationalism!
Victory to the Working Class!
Victory to the American Communist Party!

Comradely yours,

Mohammad Basir-Ul-Haq Sinha
Secretary General,
Socialist Republican Movement (Bangladesh)
