KSČM

Komunistická strana Čech a Moravy
Communist Party of Bohemia and Moravia

American Communist Party

In Prague, October 5th, 2026

Dear comrades,

on behalf of the Central Committee of the Communist Party of Bohemia and Moravia I have been authorized to convey our sincere congratulations and solidarity to the American Communist Party on the occassion of the ACP Second National Congress.

The CPB&M has a great deal of appreciation and respect towards all the members of the ACP and their activities in a strongly anti-communist enviroment, resistence against autocracy,imperialism and reaction and their steadfast belief in a better future, based on social justice and peaceful development.

We wish You and the delegates of the ACP Second National Congress a lot of courage and success in outlining further strategy of the party on the path to achieve these noble targets in the interest of Your country and well-being of its citizens.

The social change must be forged from within the sovereign will and organized struggle of the American people themselves and its mobilization in this direction. The ACP has an important role in this respect.

Fraternally,

Roman Roun

Chairman of the CC of the CPB&M

Roman Roun
předseda ÚV KSČM
