Fraternal Greetings to the 2nd National Congress of the American Communist Party from the Communist Party of Germany (KPD)

04.10.2026

Dear Comrades of the American Communist Party,

On behalf of the Communist Party of Germany, we send our warmest revolutionary and fraternal greetings to you and to all delegates of your Second National Congress. We wish your Congress successful deliberations, fruitful discussions, and strength for the tasks that lie ahead. We also welcome your desire to develop closer and more fraternal relations between our parties. We consider this exchange to be of great importance.

The struggles in our country are intensifying. The ruling class is mobilizing enormous amounts of capital for the war and arms industries, while at the same time cutting social programs and further worsening the living conditions of broad sections of the population.
The signs are clear: Germany is being transformed step by step into a war economy and into a central NATO hub for future wars. New arms production facilities are being established and existing companies are being expanded – in many cases in direct cooperation with US arms corporations. Military infrastructure is being expanded, and Germany is increasingly being prepared as a logistical and industrial base for future wars.

There is resistance to this development, but it remains too limited and fragmented. The communist movement in Germany is, realistically speaking, still weak, marginalized and divided among numerous organizations and groups. We are working to change this situation, while recognizing that this is a long and difficult process.

This is precisely why international cooperation among communists is so important. The international communist movement, the worldwide cooperation of communist parties, and mutual solidarity and support are more necessary than ever. The forces of imperialism operate internationally – and so must the forces of the working class.

We wish you and your Congress great success, strength and confidence. We look forward to further exchanges, to deepening the relations between our parties, and to developing possibilities for practical cooperation.

Long live the international solidarity of the communists!

With revolutionary and fraternal greetings,

Torsten Schöwitz, Mike Nagler

Communist Party of Germany (KPD)
