SOLIDARITY MESSAGE TO THE AMERICAN COMMUNIST PARTY - ACP ON THE OCCASION OF ITS 2ND CONGRESS

Comrades,

We extend our warmest fraternal greetings and unwavering revolutionary solidarity on the occasion of your Second Congress.

Your Congress convenes at a critical time for humanity where wars targeting the weak, modern day slavery and deprivation of human rights is a tool in the hands of the wicked.

We all owe it to ourselves the responsibility of ensuring equal sharing of world prosperity, land, peace, justice and services. We live in a world where an elite few dictates the direction of the majority, which is shamefully unacceptable — and it is this very injustice that makes your work and this day so necessary.

We must stand together in support for the right cause of world cultural revolution as a powerful and important tool for meaningful sovereignty, freedom and justice against unreasonable powers and forces.

We salute your support for Mao Zedong Thought, the ideology of the father of prosperous China, and the Juche ideology of the immortal founding father of the DPRK. We salute your unmovable and unshaken comradely spirit as demonstrated in standing for the rights of fellow Americans, China, the DPRK, Nicaragua, Venezuela, Russia and Africa just to mention a few.

We salute your courageous commitment to organizing the American working class, fighting against exploitation and oppression, and keeping alive the vision of socialism in the heart of capitalism.

On this historic occasion, we also wish to express our sincere interest in building practical partnership and collaboration between our organizations and yours in key areas of economic development, particularly in agriculture, mining, solar energy and related sectors. We believe such cooperation, founded on mutual respect, mutual benefit, and people-centered development, can strengthen the bonds of solidarity between our peoples and organizations to strengthen our operation

May your Second Congress be a great success — marked by unity, clarity, and renewed revolutionary resolve to advance the struggle for a socialist future.

Long live the American Communist Party - ACP!

Long live!

Long live cooperation and partnership between our organizations!

Long live!

The future belong to the working class!
