**Fraternal and Revolutionary Greetings from the Palestinian Communist Party**
**To the Second Congress of the American Communist Party**

Dear Comrades,

On behalf of the Palestinian Communist Party and its Central Committee, and on behalf of our comrades in Palestine, we extend our warmest fraternal and revolutionary greetings to the Second Congress of the American Communist Party and to all its delegates and participating comrades.

We send you our greetings from Palestine at a time when our Palestinian people are facing an ongoing and comprehensive aggression. In the Gaza Strip, our people are facing **genocide**, targeting civilians, destroying homes, hospitals, schools, and infrastructure, and forcing hundreds of thousands of Palestinians into displacement, in an attempt to impose conditions that make Palestinian life impossible in Gaza.

In the West Bank, **policies of ethnic cleansing, forced displacement, settlement expansion, land confiscation, and settler violence** continue, seeking to remove Palestinians from increasing parts of their land and impose colonial control over them.

As the Palestinian Communist Party, we affirm that what is taking place is not merely a temporary war, but part of an ongoing colonial system aimed at subjugating the Palestinian people, uprooting them from their land, and denying their national and historical rights.

In this context, we affirm that the U.S. government bears direct political responsibility for the continuation of these policies through its ongoing political and military support for Israel and the international cover it provides. From our Party's perspective, this support constitutes part of a system of imperialist domination that enables the continuation of occupation, aggression, and impunity.

In confronting this reality, the unity of the working class and progressive and communist forces in the United States and throughout the world assumes particular importance. The struggle of the Palestinian people for freedom, national liberation, and justice is part of the global struggle against imperialism, colonialism, exploitation, and oppression.

The Palestinian Communist Party highly values the positions of solidarity expressed by the American Communist Party toward the Palestinian people, as well as your solidarity with the struggle of our people. We reaffirm that internationalist solidarity among communists, workers, and oppressed peoples constitutes an important force in confronting imperialism, Zionism, and capitalist exploitation.

We wish your Second Congress success in its deliberations and work, and we look forward to developing the fraternal relations between our two parties and strengthening cooperation and internationalist solidarity between Palestinian and American communists.

**Long live the fraternal relations between the Palestinian Communist Party and the American Communist Party!**
**Long live internationalist solidarity with the Palestinian people!**
**Long live the unity of the working class and peoples in the struggle against imperialism and colonialism!**
**Long live the struggles of peoples for freedom, liberation, justice, and socialism!**

With our warmest fraternal and revolutionary greetings,

**Central Committee**
**Palestinian Communist Party**
