Dear comrades,

On the occasion of the 2th National Congress of the fraternal American Communist Party, the revolutionary Marxist-Leninist party Communists of Serbia welcomes all delegates to the 2th Congress and wishes you success in your work.
We are convinced that this Congress will strengthen the ACP in terms of personnel and organization and will therefore continue the uncompromising struggle against capitalism in the interest of the working class and disenfranchised citizens of USA. Today, capitalism is in a neo-fascist phase all over the world and it cannot be repaired or humanized, but must be completely destroyed, as Marx taught us and Lenin showed us. That is why we expect the ACP to be in the forefront of the working class.

Communists of Serbia once again send communist greetings to the delegates and all members of the fraternal American Communist Party with the desire to raise the cooperation between our two parties to an even higher level.

Long live revolutionary proletarian internationalism!

Long live the American Communist Party!

Comradely greeting

Communists of Serbia

General Secretary

Dejan Jovanovic
