

SOLIDARITY MESSAGE TO THE SECOND NATIONAL CONGRESS OF THE AMERICAN COMMUNIST PARTY

Comrades of the American Communist Party,
Delegates to the Second National Congress,
Comrades and fellow revolutionaries,

Greetings of militant solidarity from Zimbabwe and from the Zimbabwe Movement of Pan African Socialists.

We salute your Congress as an important gathering of revolutionary forces committed to the historic struggle of the working class against exploitation, oppression, imperialism and the rule of capital.

From the soil of Africa, we reaffirm a fundamental truth: **the workers of the world have no borders in their struggle.** The struggles of the African masses, the American working class and oppressed peoples everywhere are interconnected. Our enemies may organise globally; therefore, the forces of liberation must also organise across borders.

Africa has known the brutal reality of imperialism, colonial conquest, slavery, economic plunder, sanctions, political interference and the continued extraction of our resources for the benefit of foreign capital. Zimbabwe's liberation struggle taught us that political independence must be defended and consolidated through economic sovereignty and control over our own resources.

We therefore extend our revolutionary salute to the American comrades fighting to build a working-class movement capable of challenging the dictatorship of capital and advancing socialism.

Let our movements deepen cooperation, political education, ideological clarity and internationalist solidarity.

Workers of Africa and America, unite!
Workers and oppressed peoples of the world, unite!
Down with imperialism and capitalist exploitation!
Long live international proletarian solidarity!
Long live Pan-Africanism!
Long live socialism!
Long live the revolutionary struggle of the working class!

Amandla!
Aluta continua!
Viva international solidarity!

Cde Mafa Kwanisai Mafa
National Chairperson
Zimbabwe Movement of Pan African Socialists
